Instructions for Making Skills Ratings

These questions are about work-related skills. A **Skill** is the ability to perform a task well. It is usually developed over time through training or experience. A skill can be used to do work in many jobs or it can be used in learning. You will be asked about a series of different skills and how they relate to *your current job* - that is, the job you hold now.

Each skill in this questionnaire is named and defined.

For example:

Writing	Communicating effectively in writing as appropriate for the needs of the audience.
----------------	---

You are then asked to answer two questions about each skill:

A How important is the skill to the performance of your current job?

For example:

How <u>important</u> is WRITING to the performance of your current job?				
Not Important*	Somewhat Important	Important	Very Important	Extremely Important
①	②	③	④	⑤

Mark your answer by putting an **X** through the number that represents your answer.

Do not mark on the line between the numbers.

***If you rate the skill as Not Important to the performance of your job, mark the one [①] then skip over question B and proceed to the next skill.**

B What level of the skill is needed to perform your current job?

To help you understand what we mean by **level**, we provide you with examples of job-related activities at different levels. For example:
