July, 1999

Introduction

This document contains the occupational reinforcer patterns (ORPs) and Job Zone assignments for 1,122 O*NET occupations. The scores constituting each profile are the 21 needs identified in the Theory of Work Adjustment (TWA; Dawis & Lofquist, 1984; Dawis, Lofquist, & Weiss, 1968; Lofquist & Dawis, 1969). During career exploration, client need score profiles from the O*NET Work Importance Profiler (WIP; National Center for O*NET Development, 1999b) are compared to these occupation-specific need profiles. Occupations with profiles that most closely correspond to the client's score profile are identified on the WIP Score Report as the most promising occupations to explore.

In addition, the 21 needs can be aggregated to yield the following six value scores from the TWA: Achievement, Altruism, Autonomy, Comfort, Safety, and Status. The value scores are the basis for determining client/occupation correspondence for clients who have completed the Work Importance Locator (WIL; National Center for O*NET Development, 1999a). For both the WIP and the WIL, the six values are retitled Achievement, Relationships, Independence, Working Conditions, Support, and Recognition, respectively.

Each occupation is assigned to one of five Job Zones—groups of occupations that require similar amounts of vocational preparation. Job Zone 1 requires the least vocational preparation; Job Zone 5 requires the most vocational preparation.

The need profiles contained herein derive from job analysts' ratings of the degree to which each O*NET occupation reinforces (i.e., provides employees with) each of the 21 needs. For more information about the technical underpinnings of the development of the ORPs for the O*NET occupations (including the rating scales used by the job analysts), see *Determining the Occupational Reinforcer Patterns (ORPs) for the O*NET Occupational Units* (McCloy, Waugh, et al., 1999). More information regarding the means by which client and OU profiles are judged to be similar to one another may be found in *Linking Client Assessment Profiles to O*NET Occupational Profiles* (McCloy, Campbell, Oswald, Lewis, & Rivkin, 1999). Information about the Job Zones can be found in *Generation and Use of Ability Profiles for O*NET Occupations* (McCloy, Campbell, Oswald, Rivkin, & Lewis, 1999) and *Stratifying Occupational Units by Specific Vocational Preparation* (Oswald, Campbell, McCloy, Rivkin, & Lewis, 1999).

Acknowledgment

The development of the Occupational Reinforcer Patterns (ORPs) project was funded by the O*NET project of the U.S. Department of Labor, Employment and Training Administration, Office of Policy and Research (OPR) under the direction of Gerard F. Fiala, Administrator. The O*NET project is directed by Donna Dye, Personnel Research Psychologist.

The work was completed through Department of Labor grants with the National O*NET Consortium, National Center for O*NET Development; the North Carolina Employment Security Commission, Southern Assessment and Research Development Center; the New York Department of Labor, Eastern Assessment and Research Development Center; and the Michigan Employment Security Commission, Northern Assessment Research and Development Center.

The project was completed under the direction of David Rivkin and Phil Lewis. The Human Resources Research Organization (HumRRO) was the primary contractor. Their team was led by Dr. Rodney McCloy. Dr. Gary Carter, John Boyle, and Dan Connell initiated and participated in much of the research effort associated with developing the information.

Numerous research phases were conducted in developing the ORPs. Each phase required multiple steps and the participation of a wide variety of staff, contractors, and pilot sites. Grateful acknowledgment for their prominent roles in this process is made to Jeannie Stroupe, Dr. Steve Atkins, Helen Tannenbaum, Ray Dobrin, Enid Israelson, Ronald Boese, Brenda Dunn and Jerry Pickett.

A special thanks is given to Dr. René V. Dawis who served as the overall technical advisor for the project and whose previous research inspired the work.
