Motivation: What is economics?

Microeconomics vs. Macroeconomics

Microeconomics	Macroeconomics
an individual, group or company level	a national economy as a whole

Motivation: What is economics?

Microeconomics vs. Macroeconomics

Microeconomics	Macroeconomics
an individual, group or company level	a national economy as a whole
smaller-scale	large-scale

Motivation: What is economics?

Microeconomics vs. Macroeconomics

Microeconomics	Macroeconomics
an individual, group or company level	a national economy as a whole
smaller-scale	large-scale
utility	GDP
profit	inflation rate
market eqm.	business cycle

Motivation: What is economics?

Microeconomics vs. Macroeconomics

Microeconomics	Macroeconomics
an individual, group or company level	a national economy as a whole
smaller-scale	large-scale
utility	GDP
profit	inflation rate
market eqm.	business cycle
supply and demand	AD-AS model
maximization w/ constraint	

Goal of This Course

- Understand *how to measure* the health of the economy
- Use economic theory to explain *possible causes* of past business cycle
- Discuss the benefits and consequences of *fiscal and monetary policy*
- More importantly, I want you to understand economics-related *newspaper articles* in great detail.

Readings

- *Brief Principles of Macroeconomics* 10th Edition
 - ▶ by N. Gregory Mankiw
 - ▶ We will be referring to the textbook extensively throughout the lectures, so it is required. For a cheaper alternative, you can use the previous (9th) edition, which was written in 2021, is very similar, and can be purchased used at a much lower cost. However, there are a few differences in the numbering of the chapters in the 8th edition, so students who use this edition need to be careful to read the right chapter.

Course Outline

- Part 1** Introduction of Macroeconomic variables
How they are defined and their implications
e.g.) GDP, Unemployment rate, inflation rate

Course Outline

Part 1 Introduction of Macroeconomic variables
 How they are defined and their implications
 e.g.) GDP, Unemployment rate, inflation rate

Part 2 Monetary System and inflation
 Open Economy

Course Outline

Part 1 Introduction of Macroeconomic variables
How they are defined and their implications
e.g.) GDP, Unemployment rate, inflation rate

Part 2 Monetary System and inflation
Open Economy

Part 3 AD-AS model
Fiscal Policy and Monetary Policy

Grade Distribution

Attendance	10%
Assignments	15%
Midterm Exam	35%
Final Exam	40%

Grade Requirements

Attendance (10%) and Assignments (15%)

- Students are expected to attend essentially every class. I will check attendance randomly.
 - ▶ You need to attend class, arrive on time, and not leave early.
 - ▶ I will give full attendance marks to anyone who did not miss class *less than two times*.
- *Two to Three* traditional type homework assignments will be assigned.
